## Inauguration of Draupadi Dream Trust Farrukhabad Centre for Technology Integration for Artisans with Special Designing Software

Considering the thousands of Zardozi & Block printing artisans in the city area of Farrukhabad and a large number of 'Khaka Makers' (Traditional art & pattern creators) in the city area, the Trust decided to expose the traditional artisans to Technology and initiated another center at Farrukhabad city at Lohai road. The center was inaugurated by the Police District Chief Mr. O.P. Sagar. The center has trained over 35 artisans so far. The significant success was the enrollment of girls who are taking great interest in designing through a digital pen and slate (instead of paper & pen). The user friendly software has familiarized the students to the computer so easily that they now wish to acquire basic computer skills.

## Installation of new Systems at Kampilya

The large turnout at the Trust Computer training center at Kampilya was a blessing for us and we were able to create awareness for IT Education amongst the young. The Trust was blessed by the goodwill and good work and Power Grid donated 10 PC Systems for the Training. This has been of immense help in provided enough work stations for students - of course our overheads for power, space and teacher have also increased substantially and do hope to get more corporate CSR to come to support in this remote difficult region.
